WORK EXPERIENCE

Freelance Digital Marketing Consultant | Self-Employed

May 2025 – Present

Independent client consulting — SEO, content strategy, organic growth, and performance reporting across multiple businesses

- Grew a client's Instagram following **15x** (100 → 1,500) in under 3 months by auditing content performance data, identifying top-performing formats, and restructuring the content calendar around data-backed insights.
- Develop and execute **content strategies and monthly content calendars** for multiple clients across Instagram, LinkedIn, and YouTube, aligning content themes with business goals and audience growth targets.
- Write and publish **SEO-optimised blog content** using AI tools — posting across client websites and LinkedIn to drive organic visibility and thought leadership.
- Coordinate directly with clients and stakeholders** to gather requirements, define content goals, and manage project timelines, ensuring deliverables are on-brand, on-time, and aligned with growth objectives.

Digital Marketing Executive | StrongBox IT

Jan 2024 – Mar 2025

Sole ownership of the entire marketing function — reporting directly to CEO, managing a team of 3 (content writer, graphic designer, junior marketer)

- Drove **40% organic traffic growth** through a data-led SEO content strategy, conducted competitor benchmarking, closed critical content gaps, and optimised key service pages using Google Search Console insights.
- Generated a **25% uplift in inbound leads** by identifying location-based keyword opportunities via GA4 traffic analysis and building targeted, SEO-optimised landing pages in WordPress and Elementor.
- Independently led the full marketing team of 3 for 9 months after a senior manager exit — maintained all KPIs, content schedules, and reporting cadences without disruption.
- Built and managed GA4 dashboards tracking **KPIs daily** — traffic sources, lead quality, engagement rates, and conversion paths — presenting weekly performance reports directly to CEO and senior leadership.

- Discovered through LinkedIn analytics that newsletter posts generated **5x higher impressions** than standard content — pivoted the content strategy to prioritise newsletters, driving consistent follower and subscriber growth.
- Scaled company social media to **5,000 followers** within 12 months by managing monthly content calendars, email campaigns, and social strategy across Instagram, LinkedIn, and Facebook.

Data Reporting Intern | StrongBox IT

Jul 2023 – Dec 2023

Marketing analytics and reporting in a fast-paced startup environment — cross-team coordination from day one

- Diagnosed declining website rankings and follower performance through GA4 traffic and user behaviour analysis — presented corrective recommendations directly to COO with clear action steps.
- Acted as the analytical bridge between technical, sales, and marketing teams — translating business needs into structured performance reports and content frameworks used across departments.

PROJECTS

Content & SEO Performance Framework — *GA4 + Google Search Console + Excel | 2025*

- Designed a repeatable SEO audit and content performance framework for freelance clients — mapped keyword clusters, tracked organic ranking movements, and identified high-conversion content opportunities.
- Delivered monthly performance reports with actionable SEO and content recommendations — contributing to measurable traffic and lead growth across client accounts.

EU Loneliness Survey — Behavioural Analytics Dashboard — *Python + Power BI | 25,000-Response Dataset | 2026*

- Cleaned and analysed a 25,000-response dataset using Python (Pandas) — engineered features including age cohorts, income brackets, and social media usage segments for strategic audience insights.
- Built an interactive Power BI dashboard revealing actionable behavioural patterns — designed for non-technical stakeholders to navigate and act on independently.

Chennai Metro Ridership — Marketing Insights Report — *SQL + Power BI | 3-Year Government Dataset | 2026*

- Identified a complete digital payment behaviour shift over 3 years (paper tokens: 65% → 0.4%; smart cards: 51%) — surfaced insights applicable to digital adoption messaging strategy.
- Created a 2-page interactive Power BI dashboard with KPI cards and trend visualisations — built for non-technical decision makers to extract instant insight.
